Greg,

You should be getting an email from Kuda with initial flight line info. These are just planning lines and can be changed to meet your needs.

Looks great to me.

The locals and state are standing by for flight patterns.

Greg and Eric,  
I have drafted a task order and igce for ASPECT to repsond to the LANL wildfires.

9470624

I am assuming four days of flights with five hours of flight time each day. That may be a little high but it's easier to have the funding in place in case the response goes on for awhile. If it becomes a short response the funds can be deobligated.

In past R6 responses this SOW and IGCE gets forwarded on to Jo Gee and she does the PR in EAS and routes it through the right people. Jo already knows who the CO is and has worked with her before. If you want to tighten up the SOW so the IGCE is lower we can work with you on that. Give me a call at 816-718-4281 if you have any questions.
